

# DIY TISSUE BOX MONSTERS

## SUPPLIES:

Tissue Box (empty)

Paint

White paint

Googly eyes

White cardstock

Large pom poms

Glue

## DIRECTIONS:

1. Pull out any plastic inner lining inside the tissue box before you start.
2. Paint the outside of the tissue box with white to prime the box. Adding white will make sure the design of the tissue box doesn't show through the paint.
3. Once dry, paint the outside of the tissue box a color of your choice, and paint the inside a different color.
4. Glue the googly eyes to the top of the tissue box. You can add one, two or more eyes!
5. Cut out large teeth from paper or white cardstock. Glue the teeth to the inside of the tissue box month.
6. Glue some pop-poms on the top of the tissue box.
